

VIKRAM YADAV

vsyadav0502@gmail.com | +91 9166298554 | [LinkedIn](#)

PROFESSIONAL SUMMARY

Computer Science undergraduate skilled in Java and Python, with strong foundations in Data Structures & Algorithms and competitive programming (Codeforces). Experienced in full-stack development (Flask, SQLite) and applied AI (Vision Transformers, CNNs, OCR).

TECHNICAL SKILLS

Programming Languages: Java (OOP, DSA), Python, SQL, JavaScript, HTML/CSS

Frameworks & Development: Flask, RESTful APIs, Java Full-Stack Architecture

Databases & Platforms: SQLite (Schema Design & Querying), Git & GitHub, VS Code, IT Infrastructure & Networking (TCP/IP, DNS)

AI & Libraries: Convolutional Neural Networks (CNN), Vision Transformers, EasyOCR, Linear Algebra, Statistical Inference

PROJECT WORK

Human Disease Detection using Deep Learning

- Implemented a Vision Transformer (ViT) for X-ray/MRI disease detection, achieving 92% classification accuracy; fine-tuned on 10,000+ images, improving training efficiency by 25%.
- Built an intuitive UI for seamless image upload and instant analysis.

Plant Disease Detection using CNN

- Developed a CNN model to classify leaf diseases, achieving 95% accuracy; optimized training pipeline, reducing training time by 30%.
- Built a user-friendly interface enabling farmers to upload images and receive instant diagnosis.

Automatic Car Parking System

- Developed a full-stack automated parking system using Python and Flask, integrating License Plate Recognition (LPR).
- Engineered backend logic and an SQLite database for real-time slot management.

CERTIFICATES

Google IT Support Certificate — Google

- Gained hands-on experience configuring network media, managing IP addressing, and executing core system administration tasks.

The Bits and Bytes of Computer Networking — Google

- Mastered fundamental network architecture, including the TCP/IP five-layer model, DNS configuration, and routing protocols.

Python using AI Workshop — AI for Techies

- Leveraged advanced Python libraries to design, train, and deploy machine learning models, translating complex AI concepts into practical, integrated software solutions.

EDUCATION

Vellore Institute of Technology, Bhopal — CGPA: 8.02 / 10

B.Tech. in Computer Science and Engineering

Gudha International School (CBSE), Intermediate (PCM) — Percentage: 92.20 / 100

Gudha International School (CBSE), 10th Grade — Percentage: 91.60 / 100

CORE COMPETENCIES & LEADERSHIP

- Team Collaboration & Leadership | Critical Thinking & Problem-Solving | Time Management & Organization
- Agile/Scrum & SDLC Awareness | Code Review & Documentation | Cross-Functional Communication
- Served as a Disciplinary Committee Member for Advitya, ensuring smooth coordination and zero code-of-conduct violations during a 500+ participant event.
